### Expansion and Renovations Complete at Spa Elan

*Spa Elan is a part of Woodcliff Hotel*

**FAIRPORT, N.Y.** – Woodcliff Hotel and Spa is thrilled to announce the completion of Spa Elan’s expansion and renovation project, which began last April. Spa Elan, a full-service spa located in one of Rochester’s premier hotels, now features 1,000 square feet of additional space including more treatment rooms and relaxation suites.

“Our goal is to provide a memorable and unique experience for our clients,” said Lisa Mordenga, general manager at Spa Elan. “We offer many top of the line treatments, we have spectacular views from our new relaxation rooms and it truly feels like a vacation destination right here in our own backyard.”

The expansion of Spa Elan included the addition of two new treatment rooms and Men’s and Women’s relaxation suites. A new couples massage room was also added and provides a peaceful and romantic experience for those looking to book their treatments together.

The new décor contributes to the chic and relaxing experience spa goers are looking for. Warm earth tones, lush seating and soft treatment beds help provide additional comfort. Flavored waters and healthy snacks are also available to guests.

Single treatments or distinctive packages are available. Reservations are recommended.
